Arbitrator Skills Workshop

All arbitrators of the 16th Vis East Moot are cordially invited to participate in a skills workshop organised by HK45 and DIS40, which will be held prior to the Address by Hong Kong’s Secretary for Justice, Teresa Cheng, GBS, SC, JP, and the Welcome Reception. The panel-discussion-style workshop is aimed at both experienced arbitrators and first-timers alike. It features current Vis Moot arbitrators from different generations, who together bring with them the knowledge of their experience as participants, coaches and/or arbitrators.

The first topic of the workshop will offer insight into the Moot scoring system, present advice on objective evaluation both in the preliminary and elimination rounds, give guidance on different ways to structure a Moot session, and provide tips on how to give feedback in a manner that gives the students an optimal learning experience. When discussing the second topic, the speakers will give a short overview of this year’s moot problem, offer their expert advice on the key legal issues addressed therein, and discuss how to transform these issues into good questions.
